Skills

I'm Ivan Seslija, a Computer Science graduate from New Westminster, BC, with a deep interest in Artificial Intelligence.

My skills in Javascript, Python, Java, and C/C++ have been sharpened through academic studies and personal projects, especially in Reinforcement Learning with Convolutional Neural Networks and Neural Networks.

My background in logistics, IT, and warehousing has cultivated my adaptability, work ethic, and problem-solving abilities, equipping me to make meaningful contributions to software development projects.

- TensorFlow and PyTorch: Familiarity with popular deep learning frameworks for building and training neural networks

- Python Programming: Proficient in Python for developing and implementing a wide array of algorithms and programs

- Artificial Intelligence (AI): Strong background in AI with practical experience in developing and deploying AI solutions

- Reinforcement Learning (RL): Skilled in applying RL techniques to solve complex problems and optimize decision-making processes

- Data Mining: Expert in applying techniques like classification and clustering to extract insights from data using Python, R, and libraries like scikit-learn.

—

Experience

Vitran Express / Warehouse Worker
May 2022 - August 2022, Surrey, BC

MXS On Site IT Services Inc. / IT Field Worker
January 2018 - December 2022, Vancouver, BC

Speedy Bob Logistics Inc. / Assistant Safety Manager
January 2015 - December 2015, Langey, BC

—

Education

University of Victoria / Bachelor of Computer Science
September 2016 - December 2023, Victoria, BC

New Westminster Secondary School / High School Diploma
September 2012 - June 2016, New Westminster, BC
